

Positioned to Help You Succeed in Japan

The Resources Needed to Execute Local and Global Studies

PPD-SNBL is a joint venture of PPD and SNBL

PPD-SNBL offers full-service capabilities in Japan and applies our strong, growing team to ensure excellence in clinical trial delivery for our customers.

- PPD’s recruitment, retention and training of team members in Japan outpaces our competitors, and our turnover rates are among the lowest in industry
- Named the fifth-fastest-growing business in Japan by Randstad, PPD-SNBL has been recognized for staff retention success in the highly competitive Japanese recruiting market
- PPD-SNBL is a high quality services provider for CRO services in Japan
- Unlike our competitors, PPD-SNBL offers our customers a model of single accountability, demonstrating our understanding of the need for local and cultural alignment

600+
staff

in offices in three cities

150+
clinical trials

conducted in the past five years

1900+
sites

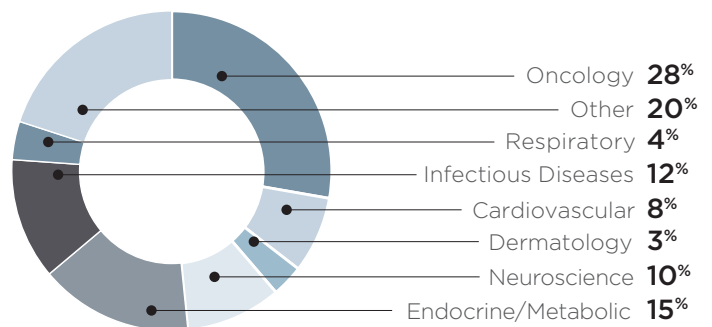

14,000+
patients

Full-service Clinical Capabilities

PPD-SNBL provides a full range of Phase I-IV CRO services in Japan. Whether a global or Japan-only trial, your study will benefit from our comprehensive set of services and will be supported by the innovative technology, processes, operational expertise and medical knowledge you expect from a leading global CRO.

Experience by Therapeutic Area Past Five Years
