

Extensive Dermatology Experience and Capabilities

PPD has a deep understanding of the challenges of **dermatology drug development** and has dedicated professionals to support trials for organizations of all sizes across a broad range of indications.

Dedicated Dermatology Expertise

Our global dermatology team is comprised of more than **700 experienced professionals**. These professionals include an expert team of more than **100 project managers** serving as your key point of contact and responsible for overall project delivery and quality. We also provide medical monitoring by board-certified physicians, as well as dedicated data management and statistics team members with far-reaching dermatology study experience. With a retention rate of **88 percent** over the past three years, our experts are well-positioned to work together to execute successful dermatology trials.

Therapeutic Experience

Our comprehensive dermatology experience spans a broad range of indications including:

- Psoriasis
- Atopic dermatitis
- Aesthetics
- Pemphigus
- Prurigo nodularis
- Pruritus
- Hereditary angioedema
- Dermatomyositis
- Facial paralysis
- Epidermolysis bullosa
- Inflammation

Additionally, our team has experience working with rare dermatologic conditions, having conducted 14 rare dermatology disease studies over the past five years.
